Flyaway

- **Flyaway is CISCO Technical Training PHASE 2 Projcet and Source Code is available in GITHUB**

Project Source Code GitHub Link : LINK

Documentation of Project:

- Sprint planning
- Core concepts and Tools used in project
- Product Functionalities
- Conclusion

Sprint Planning

Project is completed in two sprints

Sprint 1:

- Flow Chart
- Git initialization
- Database Design
- Code

Sprint 2:

- Testing of functionalities
- Push final Code to Github
- Documention

Core Concepts and Tools

- HTML
- CSS
- Servlets
- JSP
- JDBC
- SQL
- Core Java
- Mysql
- Chrome
- Tomcat
- Eclipse

Product Functionalities

- Admin Login
- User Login
- User Signup
- Search Flight according to Date/Source/Destination
- Book Flight
- Admin can add Flights
- Admin can see Booking/Flight Details
- Payment
